LOCATIONS

The training is delivered in the workplace with a licensed Racing Industry Employer.

EXPECTED DURATION

The program is designed to be delivered over 48 weeks in 12 months. Team Thoroughbred NSW Training Academy is able to support participants that need additional time. Alternatively, participants who have pre-existing skills and knowledge may be able to complete the course in a shorter duration.

ASSESSMENT REQUIREMENTS

The assessment is conducted using a combination of realistic workplace tasks, projects, knowledge tests, response to case studies and feedback from supervisors. The following provides a brief explanation of the assessment methods that are to be applied:

- **Observation assessment.** The learner is required to demonstrate a range of skills whilst being observed by, or interacting with, the assessor. These activities will be clearly explained and always relate to duties relevant to the workplace. These activities allow the assessor to observe the learner apply their knowledge and skills during practical activity.
- **Written assessment.** The learner is required to complete written response knowledge assessment in relation to each unit of competency. These activities are explained within issued workbooks and will require the learner to undertake basic research in the workplace.
- **Apprentice school assessment.** The learner is required to complete assessments that are set out at scheduled apprentice school sessions over the duration of the 48-week program. The sessions will involve presentations, classroom discussions, breakout activities and role-plays.
- **Supervisor feedback.** Workplace supervisors will be asked to provide feedback about the learner's performance during a module. The supervisor will receive a briefing at the time the learner begins studying each module to inform them of the module requirements. The assessor will engage directly with the supervisor to seek feedback on the learner's performance.
